

## Особенности пружин KYB K-Flex

Пружины K-Flex **Standard** (Стандартные) максимально приближены по своим характеристикам к оригинальным пружинам, которыми комплектуется автомобиль со стандартной подвеской.

Пружины K-Flex **Heavy Duty** (Усиленные) предназначены для эксплуатации в условиях дорог с неровным дорожным покрытием, для частой эксплуатации с полной загрузкой, для автомобилей, буксирующих прицеп. Пружины K-Flex **Heavy Duty** (Усиленные) не увеличивают и не уменьшают дорожный просвет автомобиля при стандартной загрузке.

Пружины K-Flex **Heavy Duty** (Усиленные) визуально могут отличаться от стандартных пружин меньшей высотой в несмонтированном на автомобиль состоянии.
